# Reston Painting & Contracting...

A Quarter Century of Experience You Can Rely On

Reston Painting & Contracting is a leading full-service construction and painting firm specializing in condominium, commercial, and residential projects in Suburban Maryland, Northern Virginia and Washington, DC. Our services range from simple, one day work orders all the way up to large construction and renovation projects involving multiple trades.

We carefully select and hire experienced craftsmen, tradesmen, and painters. After hiring the very best, we provide our personnel with the support they need to produce quality work, every day.

## Professional Project Management

Managing a large project requires professional project management. Our project management team consists of a project manager, field supervisor, and an onsite foreman, in addition to our friendly and helpful administrative staff. Our goal is to ensure your complete satisfaction with our work and to ensure you have someone you can talk with and get answers. A field supervisor will visit your job daily while communicating with you, the foreman and your project manager.

## Our Commitment to Green

Reston Painting & Contracting is committed to improving the environment and has put several green building and painting practices in place:

- We use environmentally friendly products and formula, such as composite-wood made from recycled materials and low-VOC (volatile organic compound) paint
- We dispose of thinners, solvents and paints in an environmentally sound way
- We work with customers who are working toward LEED™ (Leadership in Energy and Environmental Design) Certification for green building designs for their project
- We are a member of the Green Building Council
